COMMERCIAL CHECKING (AA)

An account designed for all business banking needs!

Earnings Credit - This account features an earnings credit which is applied to reduce or eliminate fees on the account. If the earnings credit exceeds the fees for any period, you will be assessed no fees but you will not be paid, carry forward, or otherwise receive credit for any excess earnings credit.

Earnings Credit Calculation - The periodic earnings credit is calculated by taking your average collected balance, less the reserve requirement imposed by the Federal Reserve, and multiplying it by the earnings credit rate. The annual earnings credit is then divided by 365 (days in the year) and multiplied by the number of days in the monthly statement cycle. The earnings credit rate or index may change at any time. The average collected balance is calculated by adding the principal in the account for each day of the period and dividing by the number of days in the period. The period we use is the monthly statement cycle.

Accrual of Earnings Credit on Non-cash Deposits - Earnings credit begins to accrue no later than the business day we receive credit for the deposit of non-cash items (checks).

Limitations: You must deposit \$50.00 to open this account.
