COMPETITIVE RATES & TERMS

In the early 1900s, there were banks in all the small towns of Oconee County...Bishop, Bogart, Eastville, Farmington, and Watkinsville. When the Great Depression came along in 1929, all of those banks failed and Oconee County was without a bank for the next 30 years. Farmers and small merchants had to travel to Athens for their banking needs.

In 1958, a group of community leaders recognized the need for a bank in Oconee County and started the process of obtaining the necessary approval for a state chartered community bank. In 1959, they announced the FDIC had approved a community bank. Oconee State Bank opened its doors for business on February 1, 1960 with 3 employees and a small corner office on Main Street in downtown Watkinsville.

Since 1960, Oconee State Bank has grown remarkably with locations across Oconee, Athens, and Gwinnett counties. We have proudly provided an unparalleled commitment to personalized service, value-added products, and a deep sense of responsibility to the communities we serve. With an eye to the future, and as part of your community, we take a personal interest in your success and are committed to helping you reach and exceed your goals. Entrusting Oconee State Bank with your personal and business financial services means surrounding yourself with a team of professionals who respond quickly to your needs and have all the resources you need to thrive.

Some account fees may be offset by the Earnings Credit.

Earnings Credit – This account features an earnings credit which is applied to reduce or eliminate fees on the account. If the earnings credit exceeds the fees for any period, you will be assessed no fees, but you will not be paid, carry forward, or otherwise receive credit for any excess earnings credit.

Earnings Credit Calculation – The earnings credit is calculated by taking the average collected balance, less the reserve requirement imposed by the Federal Reserve and multiplying it by the index, which is defined as the prior month-end 13 week Treasury Bill rate as published in The Wall Street Journal. The periodic earnings credit rate or index may change at any time.
